[Page 18](#) CONNECTION WITH TSMARTLIFE APP 1. Download the TSmartLife app 2. Register or login account Open the app, and create a new account (you can also register through a third-party account). If you already have one, just log in. Login Enter email XXXXXXXXXX Login...

[Page 19](#) CONNECTION WITH TSMARTLIFE APP If no message appears, select "+" button and select Connect your device to according to the instructions on app. If the connection fails, please follow the instructions on app. If your device is not listed, please add your device instructions provided by the app to continue.

[Page 20](#) CONNECTION WITH TSMARTLIFE APP NOTE • Make sure your devices are powered on. • Keep your mobile phone close enough to your device when you are connecting network. • Connect your mobile phone to the wireless network at home. • Check if your router supports 2.4 GHz band and turn it on.

[Page 21](#) TSMARTLIFE APP TROUBLESHOOTING Background : Offering dual-band support provides choices and maximum flexibility of the product to have successful experience on home network. A. 2.4GHz only ... e.g. older model router o In this case dual band radio will automatically operate at 2.4GHz B.

[Page 22](#) Please switch to a network that does not require authentication. o Insufficient encryption ... for cybersecurity reasons Toshiba does not recommend products to join non-encrypted or insufficiently encrypted networks (e.g. WEP encryption).

[Page 23](#) : • In case of router configuration A (see above), Toshiba recommends enabling 5GHz band if it is disabled in your router and choosing a distinct SSID name for the 5GHz band (e.g. SSIDname\_5G). Then follow the normal joining instructions to join the 5GHz network.
