### [Page 4: Before Use](#)

Always perform test recording, and use a computer to confirm whether playback is normal. Note that Sanyo accepts no responsibility for losses occurring as a result of recording or playback problems caused by malfunction of this unit or any connected devices.

### [Page 5: Cleaning The Disk](#)

BEFORE USE Cleaning the disk When there are fingerprints or dust on the recording (playback) side of the disk, it may not record properly. Also, image and/or sound quality of playback data may deteriorate. Before recording/playback, remove debris from the disk with a soft cloth by wiping the recording (playback) side outwards from the center.

### [Page 6: Names And Functions Of Parts](#)

NAMES AND FUNCTIONS OF PARTS Front panel POWER POWER indicator Lights up when the power is on. Microprocessor reset button Resets the microprocessor. Disk tray Inserts CD-R/RWs or DVD+R/+RWs. Rear panel USB terminal Socket for the USB cable (accessory) when connecting the external disc unit to the DVR.

### [Page 7: Installation And Connection To Dvr](#)

INSTALLATION AND CONNECTION TO DVR Installation Call a specialist to install the unit. (Do not try to install the unit yourself.) Use the following procedures to attach the external disc unit to the DVR. Docking the unit with the DVR is useful. The external disc unit and the DVR must be off

before commencing the following procedures.

### [Page 8: Connection](#)

INSTALLATION AND CONNECTION TO DVR Attaching the external disc unit to the DVR Place the DVR on the external disc unit. (1) Insert the three legs of the DVR into the corresponding holes in the top of the external disc unit. The fitting should be positioned on the outside of the right side of the DVR.

### [Page 9: Formatting Disks](#)

FORMATTING DISKS Formatting CD-RWs and DVD+RWs Use the following procedures to format CD-RWs and DVD+RWs. Operating the external disc unit Set the CD-RW or DVD+RW in the disk tray. Operating the DVR (DSR-5016P/5009P) When the still image on the full screen of the playback is displayed, press the [COPY] button.

[Page 10](#) The USB terminal is for the use of the recommended Sanyo CD-R/RW drive (sold separately). Non- recommended peripherals cannot be connected. For recommended recordable drives, check the Sanyo homepage or ask at your local Sanyo dealer. Sanyo website URL: <http://www.sanyosecurity.com> English...
