Page 2: Introduction

Introduction Important Safety Information Thank you for choosing this Toshiba Digital TV recorder. Before using the Digital TV recorder, please take a minute to read the following important safety information. • Although this appliance has been carefully manufactured and rigorously checked prior to leaving the factory, as with all electrical appliances it is possible for problems to develop.

Page 3 • The unit becomes warm under normal operation. Do noT place any covers or blankets on the unit in order to prevent overheating. The ventilation holes are not to be blocked. Do noT set up near radiators. Do noT place in direct sunshine. • Do noT allow the unit to get wet.

Page 4: General Information

Introduction General Information Toshiba is not liable for any damage or loss caused directly or indirectly by the malfunction of this unit, including, without limitation, any one of the following: • Failure to record contents intended to be recorded by the consumer.

Page 5: Environmental Information

Copyright protection system To play back high definition video images via an HDMI connection, it is necessary that both the player and the display device (or an AV amplifier) support a copyright protection system called HDCP (high-bandwidth digital content protection system). • HDCP is copy protection technology that comprises data encryption and authentication of the connected AV device. • This unit supports HDCP. • Please read the operating instructions of your display device (or AV amplifier) for more information. • Because HDMI is an evolving technology, it is possible that some devices with an HDMI input may not operate properly with this unit.
