Using your Digital TV recorder

Main Menu options

2. Manual.

Allows you to manually change your IP settings (for advanced users only). Use the [/ / /] buttons to navigate through the table and enter your own numbers using the [0] - [9] buttons.

note:

- The unit's fixed MAC address can be found under the Manual option, above.
- If you choose invalid IP settings the Digital TV recorder may not operate correctly.

Parental Control Menu

To change any of the Parental Control settings below you will need to enter your PIN (default = 0000). The PIN can be changed using the Set PIN option below.

- **Guidance Lock (on/off)**

Allows you to automatically lock playback of recorded programmes that are parentally advised.

- **Lock Channels**

Allows you to select the channels you would like to lock. To lock a channel select it from the list and press the [OK] button, repeat this to unlock the channel. Locked channels can only be viewed once the correct PIN (default = 0000) is entered.

- **Set Pin**

Allows you to set and verify your new PIN.

Tuning Menu

Allows you to automatically or manually tune channels. You will be asked to enter your PIN (default = 0000). The PIN can be changed using the Set PIN option above.

note

- Cannot be selected if the unit is recording or time shifting.

Service Menu

- **Manufacturer's Details**

Allows you to check the software and hardware versions and serial number of your Digital TV recorder.
