- Direct Video Input Selection
- QuickConnect™ Guide
- TouchFocus™

A DVA N TAG E TO S H I BA

®

- 42" TheaterWide

HDTV Monitor with 3D Y/C (4MB, 10 Bit) Digital Comb Filter and Vertical Contour Correction

provides more accurate processing of RF and composite video signals for a sharper, cleaner picture. This advanced Comb Filter significantly reduces detail noise, seen as shimmering or flicker, in complex or intricately detailed scenes.

- IDSC™ Pro uses a single scan rate for its progressive (540p) and its interlaced (1080i) display. This design creates a single, no compromise, focus point for a consistently sharper picture from any signal source.
- TruView™ combines the following picture enhancement technologies: Black Level Expansion, Fine White, Flesh Tone Correction and Color Detail Enhancer, this system automatically reproduces more accurate picture detail and true color.
- CableClear™ DNR+ Digital Noise Reduction circuitry optimizes poor NTSC signals from antenna or cable, this new video noise reduction system eliminates video noise (snow) for a clean crisp image
- DVI-HDTV Input provides a true uncompressed video connection with High-Bandwidth Digital Content Protection
- Illuminated Universal Remote also controls most manufacturers VCRs
