Summary of Contents for Sanyo VW-SF10CA - Professional Air Purification System

[Page 1](#) Natural decline Natural of Space purification system airborne bacteria (Air washer plus with Disinfectant Element) (particles/100 liters) 99.9% More than of the airborne bacteria removed after minutes Operating time (minutes) Verified through U.S. and other global independent testing institutions.

[Page 2](#) *2 An actual unit (Air Washer with Disinfectant Element) was operated in a 9-square-meter laboratory, where a germs solution was sprayed into the air for 30 minutes.

[Page 3](#) Now this same air washer plus technology has been used to create an air purification system that is capable of using the 'power of water' to clean the air in large spaces where people gather. This sytem removes airborne germs, bacteria and mold, as well as removes odors, smoke, VOC's, pollen and allergens caused by...
