SAFETY PRECAUTIONS (1)

SAFETY PRECAUTIONS (1)

To ensure proper usage of the unit, read this instruction manual prior to use.
 After having read it, keep it in a safe place for quick reference.
 Indications appearing both in this manual as well as on the unit itself contain cautionary items to ensure that the unit is used safely in order to prevent the operator or others nearby from being harmed or injured.

WARNING:

The message following this symbol involves the likely possibility of serious injury or even loss of life.

CAUTION:

The message following this symbol involves the possibility of injury or material damage.

The content of warning messages may also be depicted as illustrations.

This symbol is to prohibit certain actions by the operator. The following illustration will contain a specific warning message (the figure on the left prohibits dismantle).

This symbol is to indicate certain actions for the operator. The following illustration will contain a specific warning message (the figure on the left is a common example).

WARNING

Do not use the unit as a maritime or aviation navigation system or as a map for mounting climbing.
 Use only the specified power source (shown on the right). Do not use with a 24V vehicle battery (truck, bus).

This may cause fires or electric shocks.

Use only the specified power cord (shown on the right).
 Do not remodel or reconstruct the cord.

This causes fires.

Do not view the navigation maps, DVDs or videos while walking.

Use the unit only when standing still in a safe place.
 Not doing so may cause accidents or injury.

19

- Do not dismantle
- 12V vehicle battery
- 120V AC power source
- Included 12V automobile cigarette lighter connection cable
- Do not include AC/DC adaptor touch
- Dangerous
- Rock

 Rock

WARNING

Do not place or install the unit in an area that would hinder the view of the road, obstruct driving operations (such as steering, shifting or breaking), pose a danger to passengers or obstruct the deployment of the airbag system. Otherwise, traffic accidents or injury may result.

If using the unit as an automobile navigator, use the included installation kit and securely affix the unit.
 Otherwise, traffic accidents or injury may result.

Do not operate the unit or replace discs while driving.
 Do so only after having stopped the vehicle in a safe place.
 Otherwise, traffic accidents may result.

Do not use headphones while driving.
 Traffic accidents may result.

Do not dismantle or remodel the unit.
 Accidents, fires or electric shocks may result.

Do not use the unit if malfunctions occur such as if no image is displayed or if no sound is emitted.
 Accidents, fires or electric shocks may result.

In the event of foreign object intrusion into the unit, water or beverage splashing onto the unit, smoke or a strange smell coming from the unit or other abnormality, immediately stop using the unit and contact the place of purchase. Using the unit after such occurrences may cause accidents, fires or electric shocks.

Exercise caution so as to not let the unit get wet nor let water infiltrate into the unit (especially when using during rain, snowfalls, near the coastline or near a body of water). Fires or electric shocks may result.

Do not touch the antenna or the power supply plug when lightning is heard. However, when lightning is heard from afar, immediately retract the antenna to avoid being struck by lightning. (If using outdoors, immediately retract the antenna and stop using the unit.)
 Fires or electric shocks may result.

Do not use a multi-connection plug.
 Fires or overheating may result.
