Connecting A Television

You might want to connect a television to your computer to have a larger screen to watch DVDs. You can connect a television by using an S-video cable in the TV Out port on the right side of the computer.

To connect a television to the TV Out port do as follows:

Make sure the computer is turned off before connecting an external television.

1. Turn off the computer.
2. Check the instructions that come with the television.
3. Plug the connector from the television onto the TV Out port of the

computer.

You can use the Display Properties control panel to configure display settings for the television. See chapter 5 for details.

Expanding & Upgrading

TV OUT PORT
