Hot Keys

Hot keys are keys that, when pressed in combination with the Fn key, turn system functions on and off. Hot keys have an icon label on the key indicating the option or feature the key controls.

Volume mute

Instant security

Power save mode

Standby

Hibernate

Appendix A

Turns the volume off and on. When you press these keys, the current setting is shown in a window.

Blanks the screen to prevent others from accessing your data. To restore the screen and original settings, press any key or use the Touch pad. If you have set a screen saver password, a dialog box appears. Enter the password and click OK. If no screen saver password is set, the screen is restored when you press any key or use the Touch pad.

Changes the power save mode. Press Fn+F2 once to display the Power Save Mode in a window. Press the hotkeys again to change the setting. You can also change this setting through the AC Power or Battery Power items of the Power Save Modes tab in the TOSHIBA Power Management Utility.

The computer enters Standby. To avoid entering Standby unexpectedly, a dialog box appears for verification. However, if you uncheck the dialog box, it will not appear the next time.

The computer enters Hibernate. To avoid entering Hibernate unexpectedly, a dialog box appears for verification. However, if you activate the checkbox in the dialog box, it will not appear the next time.

Changes the active display device. When you press these hotkeys a dialog box appears. Only selectable devices are displayed.
