Satellite P20

The TOSHIBA International

Warranty

The TOSHIBA International Warranty is a service policy on the parts and repair on your TOSHIBA portable personal computer which is automatically available to purchasers of the computer.

The cover is assured in major industrial countries of the world. It means that wherever you take your TOSHIBA mobile PC in this area, you will never be left without help should any problems arise.

For more information on the warranty coverage please refer to your warranty booklet supplied with your Notebook.

What the warranty covers

The Warranty covers the computer in the standard version, including the AC adaptor. Batteries, modems, memory expansion kits and other TOSHIBA branded options, as well as third party expansion boards are NOT covered by this warranty. For information concerning warranties for these products, please consult your dealer.

If you would like to use the international warranty, please register for this warranty at the following Internet website:

<http://www.toshiba-europe.com/computers/warranty>

Once your registration has been received by TOSHIBA the warranty entitlement of your Notebook can be checked on the following Internet website:

<http://gedb.toshiba.com>

On the following pages is a list of the TOSHIBA Authorised Service Providers who can be contacted if a claim on the warranty needs to be made.

If users need further addresses in eastern Europe or outside Europe, these are available from the national or European companies.

The countries to which the international warranty applies can be found using the TOSHIBA Global ASP locator.
