## Playing CDs, DVDs And Digital Music Files With The Computer On Or Off

You can listen to CDs with the computer turned off and also start playing digital music files and DVDs, in which case the computer will turn on automatically.

Use the CD/Digital Mode button on the front of the computer to switch between CD mode and Digital mode.

*Whether your computer is turned on or off, the CD/Digital control buttons are locked by default. To unlock them, press the CD/Digital mode button for more than 3 seconds. Press the mode button again for over 3 seconds*

to lock them again. When the computer is off and in CD or Digital mode, the buttons will lock automatically after 2 minutes if Play is not pressed and no CD is playing.

CD MODE INDICATOR

You can refer to chapter 1 for instruction on using the CD control buttons.

## CD Mode

Computer Power Off state: You can use the CD controls to play an audio CD without turning on the computer. Press the CD/Digital Mode button for more than 3 seconds until the Direct CD LED lights, then press play. If there is no response, press Stop/Eject and check to make sure a CD is correctly placed in the CD tray.

If a DVD is in the drive, pressing play will turn the computer on in order to start playing the DVD title (as long as your computer is equipped with a DVD drive).

Computer Power On state: Press the CD/Digital Mode button for more than 3 seconds until the Direct CD LED lights. Pressing play will launch the media application appropriate for either a CD or DVD. If the CD tray is empty, an alert window will inform you.
