A DVA N TAG E TO S H I BA

®

- 42" Theaterwide

True 720p HD plasma display with built-in speakers and tuner

- 1000:1 Contrast Ratio ensures a sharp, well defined, clear image

• CrystalScan HDSC™ upconverts all video signals (including 480i/p) to 1080i HD. This results in a significant reduction in jagged-line artifacts which produces a smoother, more natural image. Selectable 540p, for users who want to display a progressive scan image from a progressive scan source, is available via the on-screen menu

• 3D Y/C (4MB, 10 Bit) Digital Comb Filter with Vertical Contour Correction provides more accurate processing of RF and composite video signals for a sharper, cleaner picture This advanced Comb Filter significantly reduces detail noise, seen as shimmering or flicker, in complex or intricately detailed scenes.

• CableClear™ DNR+ Digital Noise Reduction circuitry optimizes poor NTSC signals from antenna or cable, this new video noise reduction system eliminates video noise (snow) for a clean crisp image

• HD Window™ Multi-Scan 2-tuner POP now accepts 480i, 480p, 720p, and 1080i signals and can even display 2 different resolution signals at the same time. The split-screen function allows you to adjust the size of the POP boxes as well as displaying 16:9 and 4:3 images on the screen at the same time. The new 7 MultiWindow system allows you to view the main picture while viewing your favorites or doing a channel scan in the 7 smaller boxes.
