>>

CrystalScan HDSC™ upconverts all video signals (including 480i/p) to 1080iHD resulting in a significant reduction in jagged line artifacts creating the sharpest, most realistic picture possible from every source. For users who

want to display a progressive scan image from a progressive scan source, selectable 540p is available via the on-screen menu.

>>

®

SRS

WOW™ technology takes the performance of the television's existing speakers to a whole new level to offer the consumer superior sound quality with no additional speakers required.

>>

MegaBand™ Super Wide Band Video Amplifier significantly increases video resolution to reproduce HD signals by improving video amplification.

>>

Six-Item A/V Illuminated Remote with DVD and Audio Control is ergonomically designed and preprogrammed to operate up to six components easily in a darkened living room or home theater environment.
