## Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules, Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that

Interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

#### Prohibition of Co-location

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

#### Safety Information

To maintain compliance with FCC's RF exposure guidelines, this equipment should be installed and operated with minimum distance 20cm between the antenna and your body. Use on the supplied antenna.

#### Declaration of Conformity for R&TTE directive 2002/95/EC

##### Essential requirements - Article 3

##### Protection requirements for health and safety - Article 3.1a

Testing for electric safety according to EN 60950-1 has been conducted. These are considered relevant and sufficient.

##### Protection requirements for electromagnetic compatibility - Article 3.1b

Testing for electromagnetic compatibility according to EN 301 489-1 and EN 301 489-17 has been conducted. These are considered relevant and sufficient.

##### Effective use of the radio spectrum - Article 3.2

Testing for radio test suites according to EN 300 322-2 has been conducted. These are considered relevant and sufficient.

#### CE Mark Warning

This is a Class B product, in a domestic environment this product may cause radio interference, in which case the user may be required to take adequate measures.

Operation Channels: Ch1-11 for N. America, Ch12-14 Japan, Ch1-13 Europe (ETSI)

#### IC Warning

The Class B digital apparatus meets all requirements of Canadian Interference-Causing Equipment Regulation.

Cet appareil numérique de la class B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

#### DGT Warning
