Viewing the digital

You can view the digital signal strength of the CABLE digital TV input so

To view the digital signal

1 Press and open the

2 Highlight Installation and

3 A new set of Installation information will appear. Open the Terrestrial menu, highlight Signal Meter, and press .

4 Press to select the digital channel whose signal strength you want to view.

Note:

- The physical digital signal strength of the Signal Meter screen is a virtual TV channel. It does not affect local broadcasters to which you have entered numbers for your local channels.
- The signal strength of the virtual channel is based on the physical channel.

To close the screen and return to the Terrestrial menu:

Highlight Done and press .

To return to normal viewing:

Press .

"Setting the PC Audio" on page 54.)

Viewing the digital signal meter

Chapter 5: Setting up your TV

You can view the digital signal meter in the ANT/CABLE digital TV input source only.

To view the digital signal meter:

1 Press **CH** or **CH**; however, they can still be accessed using the number keys on the remote control.

Press

Setting AV Input mode

Highlight Installation and press

3 This setting determines the configuration of the shared AV input on your TV. You can set this input for either **ColorStream HD** or **Video**.

A new set of Installation menu icons will appear.

Open the Terrestrial menu, highlight **Signal Meter**, and press **1** From the **Preferences** menu, highlight **AV Input**.

2 Press **◀** or **▶** to select your desired setting.

4

Press **STWX** to select the antenna input and digital channel whose signal you want to check.

Note:

The physical digital channel number listed in the Signal Meter screen may not correspond

to a virtual TV channel number.

To set the HDMI audio mode:

1 Press **MENU** and open the **Sound** menu.

2 Highlight **Audio Setup** and press **OK**.

3 Press **▲** or **▼** to select **HDMI 1 Audio** and then press **◀** or **▶** to select the HDMI 1 audio mode (**Auto**, **Digital**, or **Analog**). (**Auto** is the

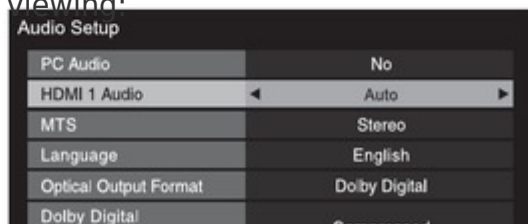

recommended mode.) See "Connecting an HDMI

or DVI device to the HDMI input" (page 18).

To return to normal viewing:

Press

(continued)

Note: Because the PC audio share the same set of antenna as the **PC Audio** menu setting, the **Audio** menu setting. If **PC Audio** is set to "Yes", the **HDMI 1 Audio** setting in the menu. (Also see item "Setting the PC Audio" on
