Troubleshooting

•

Bookmarks

To use the digital audio selector:

1
and open the Sound menu.
Press

2
Highlight Digital Audio Selector and press

3
Press S or T to select Audio, and press P, W, or X to select the desired service.

4
Press

To use the digital audio selector:

1 Press **MENU** and open the **Sound** menu.

2 Highlight **Digital Audio Selector** and press **OK**.

Note:

- A second audio program on those TV stations that station might broadcast second audio program. will see the current program hear the other language normal audio.
- If you have SAP on and watching is not broadcast program, the station's normal

Selecting stereo/SAP broadcasts

The multi-channel TV sound (MTS) feature allows you to output high-fidelity stereo sound. MTS also can transmit a second audio program (SAP) containing a second language, music, or other audio information (when provided by individual stations).

When the TV receives a stereo or SAP broadcast, the word "STEREO" or "SAP" appears on-screen when is pressed. The MTS feature is only available for analog signals on the ANT/CABLE input.

To use the digital audio selector:

- 1 Press **(MENU)** and open the **Sound** menu.
- 2 Highlight **Digital Audio Selector** and press **(OK)**.

To listen to stereo sound:

- 1 Press **(MENU)** and open the **Sound** menu.
- 2 Press **(OK)** to open the **Digital Audio Selector** menu.
- 3 Press **(UP)** or **(DOWN)** to select **Audio**, and then press **(LEFT)** or **(RIGHT)** to select the desired service.
- 4 Press **(EXIT)**.

To save the new settings, highlight **Done** and press **(OK)**.

To reset the settings to the factory defaults, highlight **Reset** and press **(OK)**.

Note:

You can typically leave the TV in **Stereo** mode because it will automatically output the type of sound being broadcast (stereo or monaural).

If the stereo sound is noisy, select **Mono** to reduce the noise.

Selecting stereo/SAP broadcasts

The multi-channel TV sound (MTS) feature allows you to output high-fidelity stereo sound. MTS also can transmit a second audio program (SAP) containing a second language, music, or other audio information (when provided by individual stations).

When the TV receives a stereo or SAP broadcast, the word "STEREO" or "SAP" appears on-screen when **(INFO)** is pressed. The MTS feature is only available for analog signals on the **ANT/CABLE** input.

To listen to stereo sound:

- 1 Press **(MENU)** and open the **Sound** menu.
- 2 Highlight **Audio Setup** and press **(OK)**.
- 3 In the **MTS** field, select **Stereo**.
- 4 Press **(OK)** to save the new settings, highlight **Done** and press **(OK)**.

Chapter 6: Using the TV's features

To reset the settings to the factory defaults, highlight **Reset** and press **(OK)**.

Note:

- You can typically leave the TV in **Stereo** mode because it will automatically output the type of sound being broadcast (stereo or monaural).

Note:

A second audio program (SAP) can be heard only on those TV stations that offer it. For example, a station might broadcast another language as a

Note:

- A second audio program on those TV stations that station might broadcast second audio program. will see the current program hear the other language normal audio.
- If you have SAP on and watching is not broadcast program, the station's not output. However, occasionally at all in **SAP** mode. If this feature to **Stereo** mode.

Using the MTS button

If you press **(MTS)** when : tuned:

- The Analog Audio bar will display Stereo, SAP, Mono as the

If you press **(MTS)** when : tuned:

- The Digital Audio bar will display different audio choices for

If you press **(MTS)** when : selected:

- No Audio bar is displayed

Adjusting the audio

You can adjust the audio quality, bass, treble, and balance.

To adjust the audio quality:

- 1 Press **(MENU)** and open the **Sound** menu.
- 2 Highlight **Audio Setting**.
- 3 Press **(DOWN)** or **(UP)** to highlight **Bass**, **Treble**, or **Balance** and press **(OK)** to adjust.
- 4 Press **(LEFT)** or **(RIGHT)** to adjust:
 - (LEFT)** makes the bass or treble increase the balance (depending on the input).
 - (RIGHT)** makes the bass or treble decrease the balance (depending on the input).

second audio program. If you have SAP on, you will see the current program on the screen but hear the other language instead of the program's normal audio.

If you have SAP on and the station you are watching is not broadcasting a second audio program, the station's normal audio will be output.

However, occasionally there is no sound at all in SAP mode. If this happens, set the MTS feature to Stereo mode.

To use the digital audio selector:

- 1 Press **(MENU)** and open the **Sound** menu.
- 2 Highlight **Digital Audio Selector** and press **(OK)**.

Using the MTS button

If you press

when an analog channel is tuned:

The Analog Audio bar will appear and will display Stereo, SAP, Mono as the options.

If you press

when a digital channel is tuned:

The Digital Audio bar will appear and will offer different audio choices for the digital channel.

If you press

when an external input is selected:

No Audio bar is displayed.

Selecting stereo/SAP broadcasts

The multi-channel TV sound (MTS) feature allows you to output high-fidelity stereo sound. MTS also can transmit a second audio program (SAP) containing a second language, music, or other audio information (not provided by individual stations).

When the TV broadcasts a stereo or SAP broadcast, the word "STEREO" or "SAP" appears on-screen when the MTS feature is only available for analog signals on the ANT/CABLE input.

To listen to stereo sound:

- 1 Press **(MENU)** and open the **Sound** menu.
- 2 Highlight **Audio Setup** and press **(OK)**.
- 3 In the **MTS** field, select **Stereo**.
- 4 To save the new settings, highlight **Done** and press **(OK)**. To reset the settings to the factory defaults, highlight **Reset** and press **(OK)**.

Note:

- You can typically leave the TV in **Stereo** mode. If the stereo sound being broadcast (stereo or mono) is not clear, you can adjust the balance (depending on the item selected).
- If the stereo sound is noisy, select **Mono** to reduce the noise.

1

and open the Sound menu.

Press

2

Highlight Audio Settings and press

3

Press T or S to highlight the item you want to adjust (Bass, Treble, or Balance).

4

Press W or X to adjust the level.

W makes the bass or treble weaker or increases the balance in the left channel (depending on the item selected). X makes the bass or treble stronger or increases the balance in the right channel (depending on the item selected).

Note:

- A second audio program on those TV stations that station might broadcast second audio program. will see the current program hear the other language normal audio.
- If you have SAP on and watching is not broadcast program, the station's normal output. However, occasionally at all in **SAP** mode. If this feature to **Stereo** mode.

Using the MTS button

If you press **(MTS)** when tuned:

- The Analog Audio bar will display Stereo, SAP, Mono as the options.

If you press **(MTS)** when tuned:

- The Digital Audio bar will offer different audio choices for the digital channel.

If you press **(MTS)** when selected:

- No Audio bar is displayed.

Adjusting the audio

You can adjust the audio quality, bass, treble, and balance.

To adjust the audio quality:

- 1 Press **(MENU)** and open the
- 2 Highlight **Audio Setting**
- 3 Press **▼** or **▲** to highlight adjust (**Bass**, **Treble**, or
- 4 Press **◀** or **▶** to adjust
 - **◀** makes the bass weaker or increases the balance (depending on the item selected).
 - **▶** makes the bass stronger or increases the balance

5

To save the new settings, highlight Done and press
. To reset the settings to the factory defaults,
highlight Reset and press

Chapter 6: Using the TV's features

(continued)

To use the digital audio selector:

Note:

- A second audio program
