Using Battery Power

The Notebook PC is designed to work with a removable battery pack.

The battery pack consists of a set of battery cells housed together.

A fully charged pack will provide several hours of battery life, which can be further extended by using power management

features

through the BIOS setup. Additional battery packs are optional and

can be purchased separately through a Notebook PC retailer.

Installing and Removing the Battery Pack

Your Notebook PC may or may not have its battery pack installed. If

your Notebook PC does not have its battery pack installed, use the

following procedures to install the battery pack.

IMPORTANT! Never attempt to remove the battery pack while the Notebook PC is turned ON, as this may result in the loss of working data.

To install the battery pack:

34
