The Grand Tour

Left side

The following figure shows the computer's left side.

Universal Serial Bus

Universal Serial Bus

(USB) Port

Cooling Vents

i .LINK (IEEE1394)

Port (optional)

PC Card Slot

ExpressCard Slot (optional)

2-4

Cooling Vents

(USB) Port

The left side of the computer

The Universal Serial Bus (USB 2.0 and 1.1) port allows you to connect USB-equipped devices (such as keyboards, mice, hard drives, scanners, and printers) to the computer.

The cooling vents help to keep the inside from overheating.

Connect an external device, such as a digital video camera to this port for high-speed data transfer.

The PC Card slot can accommodate one Type II PC Card. You can install any industry standard PC Card such as a SCSI adapter, Ethernet adapter or flash memory card.

This slot allows you to insert an ExpressCard. An ExpressCard module is a small, modular add-in card technology based on PCI Express and Universal Serial Bus (USB) interface. Both ExpressCard/34 and ExpressCard/54 are supported.
