Power indicators

As shown in the above table, the Battery and Power indicators on the system indicator alert you to the computer's operating capability and battery charge status.

Battery indicator

Check the Battery indicator to determine the status of the battery pack. The following indicator lights indicate the battery status:

Flashing orange

Orange

White/Green

No light

If the battery becomes too hot while it is being charged, the charge will stop and the battery indicator will go out. When the battery's temperature falls to a normal range, charge will resume. This occurs whether the computer's power is on or off.

Power indicator

Check the Power indicator to determine the power status:

White/Green

Blinking orange

No light

User's Manual

The battery charge is low. The AC adaptor must be connected to recharge the battery.

Indicates the AC adaptor is connected and charging the battery.

Indicates the AC adaptor is connected and the battery is fully charged.

Under any other conditions, the indicator does not light.

Indicates power is being supplied to the computer and the computer is turned on.

Indicates power is being supplied to the computer while the computer is in Sleep Mode.

The indicator turns on for one second and off for two seconds.

Under any other conditions, the indicator does not light.

Power and Power-Up Modes
