TOSHIBA Security Assist

The TOSHIBA Security Assist Utility acts as a "command center" where you can set up various passwords or other security features, and see how these features can be used with each other to increase security even further, or to simplify the ways that you protect your system.

To open TOSHIBA Security Assist:

Click Start, All Programs, Toshiba, Utilities, and then

Security Assist, or click the Security Assist icon in the Secure
tab of

The TOSHIBA Security Assist main window appears.

(Sample Image) TOSHIBA Security Assist window

From the main window, you can select a category that shows the type of passwords or other security features that can be used in that scenario.

The available categories are:

Boot Setting—Select this category to set up security features that will prevent an unauthorized user from even starting up your machine.

TOSHIBA

Assist.

BIOS User Password: Set up a power-on password in the system BIOS.

HDD User Password: Set up a BIOS password and use the same password for a hard disk password.

Fingerprint Authentication: Register your fingerprints, to be used in place of a BIOS and/or HDD password, when requested.
