Troubleshooting

•

Bookmarks

Please refer to the following procedures to back up.

If Windows Vista™'s file encryption function EFS (Encryption File System) is used to encrypt a file, the file cannot be further encrypted using the encryption function of this software. In the help file, it is stated that this software's Password Bank function can be used for the Internet and general applications. However, the Internet Password Bank function in the FingerPrint utility provided in this computer can only be used with IE (Internet Explorer).

Set up Procedure

Please use the following procedure when first using FingerPrint

authentication.

FingerPrint Registration

You should initially enroll the required authentication data using the 'User Enrollment' Wizard.

■ *In use, the FingerPrint authentication system will use the same username and password as defined within Windows operating system. If no Windows password has been configured, you must do this before starting the FingerPrint registration process.*

■ *Up to twenty-one FingerPrint patterns can be registered on this sensor.*
1. Click Start followed by All Programs followed by Protector Suite QL and then click User Enrollment.

You are also able to start the User Enrollment Wizard by using the following method.

■ *Click the Protector Suite QL icon in the Task Bar.*

■ *Swipe your finger across the FingerPrint Sensor.*

2. Click Next.
3. At the User's Password screen which is then displayed, you should ensure that the same Windows username is displayed before entering the appropriate password into the Enter your password field. Once this has been done, click Next.
4. At the Hints for FingerPrint Enrollment screen, confirm the message displayed and ensure that there is a check mark in the Run Interactive Tutorial box. Once this has been done, click Next.
5. At the Correct swipe Procedure screen, confirm the message that is displayed and then click Next.
6. At the Scanning Practice screen, you are able to practice swiping your finger to ensure you use the correct method. Once you have finished practicing, click Next.
