Troubleshooting

•

Bookmarks

CD-RW can generally be rewritten about 1,000 times. However, the actual number of rewrites is affected by the quality of the media and the way it is used.

Be sure to connect the universal AC adapter when you write or rewrite.

Be sure to close all other software programs except the writing software.

Do not run software such as a screen saver which can put a heavy load on the CPU.

Operate the computer at full power. Do not use power-saving features.

Do not write while virus check software is running. Wait for it to finish, then disable virus detection programs including any software that checks files automatically in the background.

Do not use hard disk utilities, including those intended to enhance hard disk access speeds, as they may cause unstable operation and damage data.

Write from the computer's hard disk drive to the CD. Do not try to write from shared devices such as a LAN server or any other network device.

Writing with software other than TOSHIBA Disc Creator has not been confirmed. Therefore, operation with other software cannot be guaranteed.

ManualsLib.com

When writing or rewriting

Please observe/consider the following when you write or rewrite to a CD-R/RW disc.

Do not perform any of the following actions when writing or rewriting:

Do not use shut down/log off and Sleep/Hibernation while writing or rewriting

Make sure writing or rewriting is completed before going into Sleep/hibernation. Writing is completed if you can open the drive tray.

Set the computer on a level surface and avoid places subject to vibration such as airplanes, trains or cars. Do not use an unstable surface such as a stand.

User's Manual

Change users in the Windows Vista™ operating system.

Operate the computer for any other function, including using a mouse or TouchPad/Dual Mode Pad or closing/opening the LCD panel.

Start a communication application such as a modem.

Apply impact or vibration to the computer.

Install, remove or connect external devices such as USB devices, an external display, i.Link devices or optical digital devices.

Use the audio/video control button to reproduce music or voice.

Open the drive.
