To Display your LCD TV on the included Pedestal Stand:

6) After attaching the appropriate bracket(s) to the well at the back of the TV, remove the pedestal stand from the TV, as described below. Observe the following safety precautions:

Manufacturers, retailers and the rest of the consumer electronics industry are committed to making home entertainment safe and enjoyable.

As you enjoy your television, please note that all televisions - new and old - must be supported on proper stands as installed according to the manufacturer's recommendations. Televisions that are inappropriately loaded on dressers, bookcases, shelves, desks, speakers, chests, carts, etc., may fall over, resulting in injury.

Follow the manufacturer's recommendations for the safe installation of your television.

Read and follow all instructions for proper use of your television.

When children to climb on or play on the television or the furniture on which the television is placed.

Place the television on furniture that can easily be used as steps, such as a chest of drawers.

Install the television where it cannot be pushed, pulled over or reached down.

Route cords and cables connected to the television so that they cannot be tripped over, pulled or grabbed.

Many new television buyers move their older CRT television into a secondary room after the purchase of a flat-panel television. Special care should be made in the placement of older CRT televisions.

Place your older CRT television on furniture that is sturdy and appropriate for its size and weight.

Place your older CRT television on a dresser where children may be tempted to use the drawers to climb.

Make sure your older CRT television does not hang over the top of your furniture.

Manufacturers, retailers and the rest of the consumer electronics industry are committed to making home entertainment safe and enjoyable. As you enjoy your television, please note that all televisions - new and old - must be supported on proper stands as specified according to the manufacturer's recommendations. Televisions that are inappropriately loaded on dressers, bookcases, shelves, desks, speakers, chests, carts, etc., may fall over, resulting in injury.

Follow the manufacturer's recommendations for the safe installation of your television. Read and follow all instructions for proper use of your television. Allow children to climb on or play on the television or the furniture on which the television is placed. Place the television on furniture that can safely be used as steps, such as a chest of drawers. Do not place the television where it cannot be pushed, pulled over or scratched down. Route cords and cables connected to the television so that they cannot be tripped over, pulled or grabbed.

Do not doubt your ability to safely mount your television. Use a mount that has been recommended by the television manufacturer and has a safety certification by an independent laboratory (such as UL, CSA, STL). Follow all instructions supplied by the television and mount manufacturers. Make sure that the wall or ceiling where you are mounting the television is appropriate. Some mounts are not designed to be mounted to walls and ceilings with steel studs or other block construction. If you are unsure, contact a professional installer. Televisions can be heavy. A minimum of two people is required for a wall or ceiling mount installation.

Many new television buyers move their older CRT televisions into a secondary room after the purchase of a flat-panel television. Special care should be made in the placement of older CRT televisions. Place your older CRT television on furniture that is sturdy and appropriate for its size and weight. Place your older CRT television on a dresser where children may be tempted to use the drawers to climb. Make sure your older CRT television does not hang over the top of your dresser.
