[Page 2: Compactor Safety](#)

Compactor Safety Your safety and the safety of others are very important. We have provided many important safety messages in this manual and on your appliance. Always read and obey all safety messages. This symbol alerts you to potential hazards that can kill or hurt you and others. All safety messages will follow the safety alert symbol and either the word "DANGER"...

[Page 3: Electrical Requirements](#)

Electrical Requirements How Your Compactor Works The compacting ram is the part of the compactor which compresses the trash. The compacting ram does not go to the bottom of the drawer. You will not see compacting of trash the first few times you load the compactor. NOTE: The compactor drawer should be about 1/2 full before the compactor can begin to compress the load, You may hear a noise when glass breaks.
