[Page 21: Setting Up The Player](#)

Blu-ray Disc™ playback Setting up the player Find the correct viewing input Press the button to turn on this product. Turn on the TV and switch to the correct video-in input (refer to the TV user's manual for instructions on how to select the correct input).

[Page 22: Advanced Playback](#)

Blu-ray Disc™ playback Stop playback Press the STOP button once to go to resume mode, the TV screen will show the resume logo. Press the button to resume playback from the point where playback is stopped. Press the STOP button twice to stop the playback completely and the setup screen appears. Use the button to select BD/DVD, and press the OK button to begin playback from the beginning of the disc.

[Page 23](#) Blu-ray Disc™ playback TOP MENU You may press the TOP MENU button at any time, and the Blu-ray Disc or DVD video disc playback will display the disc menu. POP UP/MENU During Blu-ray Disc playback, press the POP UP/MENU button to display the disc title, and the playback will not be stopped even if the menu is displayed on the screen.

[Page 24](#) Blu-ray Disc™ playback REPEAT Press the REPEAT button repeatedly to select different repeat modes. Blu-ray Disc : Repeat Chapter and Title. DVD: Repeat Chapter, Title and All. CD-DA/JPEG/MP3: Repeat Track and All. To play certain sections within the video or song, press the A-B button to set the start point. Then, press the A-B button again to set the end point and complete the setting.

[Page 25: Playing Mp3/Jpeg/Mpeg4 Files](#)

Blu-ray Disc™ playback Some Blu-ray™ discs have the PIP function enabling you to display the secondary video in the primary video. You can call up the secondary video by pressing the PIP button when the scene contains the secondary video. See the documentation that came with

the disc for playback instructions. Turn on secondary video by pressing the PIP button.

[Page 26: Customizing](#)

Customizing Customizing This section describes the various setting options of this Blu-ray Disc™ and Online Media Player. If the setup option is greyed out, it means the setting cannot be changed at the current state. Press the SETTING button in stop mode to display the setup screen. Press OK to enter the Setting menu.

[Page 27: System Setting](#)

On: The disc playback automatically after loading. Off: Turn off disc auto play mode. This feature uses CEC (Consumer Electronics Control) technology and allows you to control Toshiba HDMI™ CEC compatible devices from the player's remote control via the HDMI™ connection.

[Page 28: Network](#)

Customizing Deactivate Setting To apply the deactivation, unplug the player after operating deactivation. Upgrade This option allows you to update your players software via a Disc, USB Storage or Network. External Memory The External Memory can be used in the BD-Live function.

[Page 29: Language Setting](#)

Customizing Media Server Search The Media Server Search function enables you to create an interoperability network with other devices for resource sharing based on a network. See Media Server Search on page 32 for details. Language Setting This setting allows you to choose the language for your on-screen menus and screens. In the Setting menu, use the / button to select Language and press OK.

[Page 30: Information](#)

Customizing Rated discs above the level you set in Parental Control require a password to be entered. The ratings are country dependent. To allow all discs to play, select 'Off'. Information In the Setting menu, use the / button to select Information and press OK. The current Software Version, MAC Address and Netflix ESN will be displayed.

[Page 31](#) Customizing TV Screen Select the screen format according to how you want the picture to appear on the TV. 16:9 Full: For a disc with the aspect ratio of 4:3, the output video is stretched into 16:9 full screen. 16:9 Normal: For a disc with the aspect ratio of 4:3, the output video is resized vertically to match what will be seen on the display.

[Page 32: Network Functional Description](#)

OK. For more information, please see the "Network" section on page On your Miracast compatible device, search for the "TOSHIBA BDPL" from the list of discovered devices and select it. It may take the player and the Miracast compatible device a few seconds to connect.

[Page 33: Navigating The Eportal Menu](#)

Some features require an always-on broadband Internet connection, firmware update and/or additional bandwidth dedicated to this product. Third party Internet services may change or be discontinued or restricted at any time. Toshiba makes no warranties, representations, or assurances about the content, availability or functionality of third-party content or services.

[Page 34: Watching Movies With Cinemanow](#)

If you are not a Netflix member: Select no. ® Read the instructions displayed on the TV screen, and visit <http://www.netflix.com/toshiba> from your Sign up to create your account, then select "I'm now a member". If you are a Netflix member, select yes.

[Page 35: Watching Movies With Youtube](#)

Network functional description Watching movies with YouTube ® This service enables you to use the following services provided by YouTube ® Press the HOME button on the remote control or select Portal in the setup screen to display the ePortal Home.

[Page 36: Troubleshooting](#)

Troubleshooting Troubleshooting If you experience any of the following difficulties while using this unit, check the list below before consulting your nearest TOSHIBA dealer. Problem: Solution:

Connect the product to the power outlet. No reaction to the remote control. Point the remote control at the product.

[Page 37: Glossary](#)

Glossary **Aspect ratio** Aspect ratio refers to the length to height ratio of TV screens. The ratio of a standard TV is 4:3, while the ratio of a high definition or wide TV is 16:9. The letterbox allows you to enjoy a picture with a wider perspective on a standard 4:3 screen.

Page 38 **Glossary** **HDCP** High-bandwidth Digital Content Protection. This is a specification that provides a secure transmission of digital contents between different devices (to prevent unauthorized copyright.) **HDMI** High-Definition Multimedia Interface (HDMI) is a high-speed digital interface that can transmit uncompressed high definition video and digital multichannel audio. It delivers high quality picture and sound quality. HDMI is fully backward compatible with DVI.

[Page 39: Specifications](#)

Some features may require additional bandwidth. Third party Internet services are not provided by Toshiba, may change or be discontinued at any time and may be subject to third party restrictions. Toshiba makes no representations or warranties about these services, which may require the creation of a user account through a computer with Internet access.

[Page 40: License Information](#)

Nevertheless, You agree to use the Third Party Services at Your sole risk and that Toshiba shall not have any liability to You for content that may be found to be offensive, indecent, or objectionable. Certain Services may display, include or make available content, data, information, applications or materials from third parties ("Third Party Materials") or provide...

Page 41 Toshiba, and its licensors, reserve the right to change, suspend, remove, or disable access to any Services at any time without notice. In no event will Toshiba be liable for the removal of or disabling of access to any such Services. Toshiba may also impose limits on the use of or access to certain Services, in any case and without notice or liability.
