[Page 2](#) Tired of sticking to your PC and busy with your keyboard and mouse? With the ASUS DH Remote, you can play, pause, or adjust the volume on any songs desired without leaving your sofa. Have DH Remote in your hand and do more...

[Page 3: Software Installation](#)

USB receiver • The valid IR function distance is 6m depending on the environment. Suggest you to aim at the IR receiver when using the ASUS DH Remote to ensure a smooth and successful operation. • These two USB ports support USB wake-up capability. So when the computer is not turned on, removing USB devices such as the ASUS IR receiver from these two ports will start up the PC.

[Page 4](#) Activating HID-Compliant Devices Due to the limitation of the operating system, if you remove the IR receiver from the previous port and have it reinstall into the other USB port, the IR receiver will not function. To activate the HID-compliant devices again, go to Device Manager/Power Manager and check the box of Allow this device to bring the computer out of standby.

[Page 5](#) • You have to check the box of Enable Power Key before using the ASUS DH Remote to turn on and off your PC or to have it hibernate. Visit www.microsoft.com for details about Hibernate. •...

[Page 6](#) AP Launch Button and AP Launch Menu Navigate with the media control zone. upward leftward rightward enter downward Select Application Profile After you press on the remote control, an application profile will be displayed on the screen. Use the remote control to navigate and initiate a desired application. Select Application Path If the software fails to locate the executable file of the application at the first-time use, the...

[Page 7](#) If you want to use the Media Control Zone to control non-default applications, such as ACDSee, you can select User Define from the drop-down menu and rename it by pressing Rename. The ASUS DH Remote software has correctly set up nine popular applications and defined the function buttons for your convenient operation.

[Page 8](#) Appendix The Function Buttons and AP Profile The ASUS DH Remote software helps you set up the correspondence between the function buttons on the remote to the function hotkeys of nine popular applications in advance and leaves five sets for User Define. Media Player iTunes PowerDVD WinDVD QuickTime Full Screen...
