10. INSTALL OUTDOOR UNIT

10.1 Wiring Instructions for the Outdoor Unit

Regulations on wire size differ from locality. For field wiring requirements, please refer to your local electrical codes. Make sure that the installation fully complies with all local and national regulations.

1. Disassemble the handle on the outdoor unit right side plate. (Screw x 1pc)
2. Take off wire clamp, connect and fix

bank. Connect the inter-unit wiring and power line according to the drawing on the handle.

3. Fix the power connection cable with wire clamp. (Fig. 24 / 25)

Use the wire clamp to fix the signal control wire, then connect to the corresponding connector.

4. Be sure to size each wire allowing approx. 10 cm longer than the required length for wiring, Store excess wiring inside the cabinet.

5. When connections are completed, check that all connections are correct as shown in the wiring system diagram on the handle.

6. Be sure to ground the unit according to your local codes.

7. Install back the handle. (Screw x 1pc)
