Think GAIA

For Life and the Earth

SANYO laboratory refrigerators and freezers are designed specifically for the demanding standards of clinical, life science, biotechnology and industrial laboratories.

SR-L4110W and SR-L4110WSEC

Medicool™ Laboratory Appliance Series Refrigerator

Laboratory Appliance series +4°C refrigeration for undercounter or free standing applications.

Chamber Features

The chamber features three adjustable full depth shelves and flat inner door liner for maximum storage capacity. The interior liner is fabricated from seamless high impact polystyrene with rounded corners for ease in cleaning.

Design

Designed for general purpose, clinical, life science, biotechnology, and industrial use.

Temperature Control

Equipped with an adjustable thermostat for approximate temperature performance range of 1°C to 10°C. (must be verified with separate thermometer).

Hasp Lock

Models are available with a hasp lock for secured storage requirements and designated by the suffix "SEC" (SR-L4110WSEC).

HF-5017W and HF-5017WSEC

Medicool™ Laboratory Appliance Series Freezer

Laboratory Appliance series -20°C freezing for undercounter or free standing applications.

Chamber Features

The chamber features two fixed, evaporator shelves for quick freezing. Inner door shelving allows for full utilization of storage. The interior liner is fabricated from seamless high impact polystyrene with rounded corners for ease in cleaning.

Design

Designed for general purpose, clinical, life science, biotechnology, and industrial use.

Temperature Control

Equipped with an adjustable thermostat for approximate temperature performance range of -20°C to -15°C (Must be verified with separate thermometer). The unit is manual defrost for steady temperature performance.

Hasp Lock

Models are available with a hasp lock for secured storage requirements and designated by the suffix "SEC" (HF-5017WSEC)
