you listen to music, check your email and social networking accounts, play a game, watch streaming videos,

write a paper, work on a presentation, print out an important document, or whatever else you can imagine!

**12/30/11**

**PA3927U-1FRP**

The dynadock U3.0 has a built-in HD digital video card supporting dual display output. Connect one or two

external displays with resolution up to 2048 x 1152 each. View up to 3 displays simultaneously (including your

laptop screen). 3.5mm audio ports or the HDMI™ out port can also pump out 5.1 surround sound, providing a

true multimedia experience.

In addition, the dynadock U3.0 includes four USB 3.0 ports, two USB 2.0 ports, Ethernet connectivity and easy

access front-side 3.5mm computer's potential with the dynadock™ U3.0, the universal docking station for all Windows® based computers. As a bonus,

the upright slim design saves precious desk space while providing fast access to a true desktop environment.

Docking and undocking is easy. Just plug in the one USB 3.0 cable from the dynadock to any USB 3.0 or USB

2.0 port on your laptop and your display(s) and accessories will be activated in seconds. To undock, simply

unplug the one cable and go! external displays with resolution up to 2048 x 1152 each. View up to 3 displays simultaneously (including your

laptop screen). 3.5mm audio ports or the HDMI™ out port can also pump out 5.1 surround sound, providing a true multimedia experience. Check out

www.dynadock.com for the latest updated Windows® software drivers, support and information on the upright slim design saves precious desk space while providing fast access to a true desktop environment.

### Product Features
