Thank you for purchasing this product.

- Please read this manual carefully in order to operate the machine properly and safely.
- After reading, keep this manual handy for your future reference.

The information you need to prevent danger to the user and other people as well as property damage is described below. "Description of signs" shows different categories of the degree of danger or damage that may occur due to wrong handling.

- Bluetooth
2.1 with audio and digital signal processing for clean, best-in-class wireless stereo sound.
- Built-in microphone with advanced noise-cancellation enables clear wireless remote-talk, calling and conferencing.
- Convenient charging with more USB ports (included).
 - Rechargeable lithium ion battery for up to 12 hours of playback.
 - Connects to Audio Player or any device with USB (charging port only) for USB charging (not included).
 - Auto-search and auto-reconnect with compatible devices.

Bluetooth

- Wireless
 - Devices with Bluetooth
 - 2.0 or above, such as iPad, iPhone and most Bluetooth
- Equipped smart phones or computers.

- Wired
 - Devices with a standard

Recharging battery

This unit has a built-in Li-Polymer rechargeable battery. Before use, fully charge the battery by connecting the unit to a computer or other device made for USB charging through the included USB cable.

- Plug the micro USB end of the cable into the micro USB port on the back of the unit.
- Plug the other end into a USB port on your computer or other device made for USB charging.
- The LED will glow red when charging. When the battery is full, it will glow blue. Charge time is 3 hours from an empty battery.

Status LED indicator

A LED light is located at the front of the unit, indicating the various status/modes of the unit.

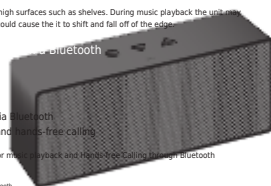

- LED on
 - Power On
 - Flashing Blue
 - Power On
 - Flashing Blue/Red
 - Pairing mode
 - Flashing Red
 - Low battery level
 - Blue
 - Battery fully charged
 - Red
 - Battery is recharging

Description of signs

- Indicates that there is a risk of death or serious injury.
- Indicates that there is a risk of light injury or property damage.
- To reduce the risk of fire, electric shock or product damage.
 - Do not expose this unit to rain, moisture, dripping or splashing.
 - Do not place objects filled with liquids, such as vases, on this unit.
 - Do not use near bathtubs, washbowl, kitchen sinks, laundry tubs, in a wet basement, near a swimming pool, or anywhere else that water is present.
 - Do not expose this unit to excessive heat such as direct sunlight, fire or the like.
 - Do not store or use this unit inside cars in hot weather, where it can be exposed to temperatures in excess of 60°C (145°F).
 - Do not attempt to charge the battery in temperatures outside the temperature range of 0°-40°C (32°-104°F).
 - Do not step on, throw, or drop battery. Do not attempt to disassemble, repair, or modify the battery.
 - Do not continue charging the battery if it does not reach full charge within the specified charging time. Overcharging may cause the battery to become hot, rupture, or ignite.
 - Do not short-circuit the battery. Doing so may cause the battery and power supply to generate heat, rupture, or ignite.
 - If the battery begins to leak, do not allow the liquid to come in contact with your skin or eyes. If contact has been made, wash the affected area with plenty of water and seek medical attention immediately.
- The power supply must be used indoors only. It is neither designed nor tested for charging outdoors, in recreation vehicles, or on boats.
- Do not remove covers.
- Use only the recommended accessories. Make no modifications to the product or accessories. Unauthorized alterations may compromise safety, regulatory compliance, and system performance and will void the warranty.
- Do not lubricate any part of the unit.
- Do not repair this unit by yourself. Refer servicing to qualified service personnel. Opening or removing covers may expose you to electrical hazards and will void the manufacturer's warranty.

TOSHIBA

- The unit contains small parts that may be a choking hazard and is not suitable for children under age 3.
- Place this unit on a level surface away from sources of direct sunlight or excessive heat.
- Do not place any flame sources, such as lit candles, on or near the unit.
- Do not place this unit on other electrical equipment.
- Protect your furniture when placing this unit on a natural wood and lacquered finish. A cloth or other protective material should be placed between it and the furniture.
- Do not place this unit on high surfaces such as shelves. During music playback the unit may vibrate and move which could cause the it to shift and fall off of the edge.

Bluetooth

Set-up and pairing via Bluetooth for music playback and hands-free calling

- In order to use this unit for music playback and hands-free calling through Bluetooth, the speaker must first be paired with the Bluetooth device.

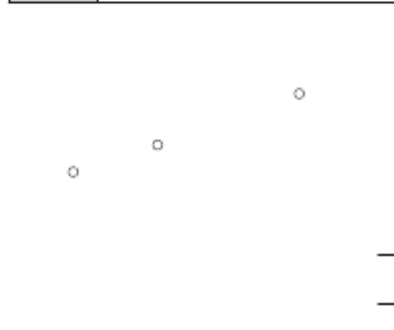

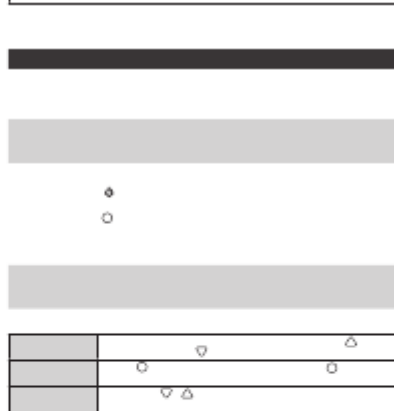

Note

- This unit can pair with most Bluetooth 2.0 devices. Since the pairing procedure can vary by device, please consult the Owner's manual of your device.

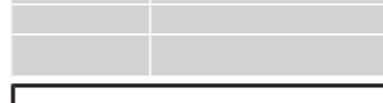

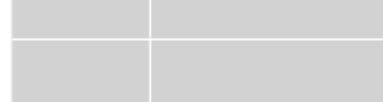

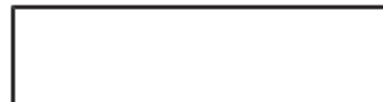

Putting the unit into pairing mode

- Press and hold the (Power/ON/OFF) button to turn on the unit.
- This will hear "Power On sound".
- Press and hold the (Power/ON/OFF) button until the light on the front starts blinking red and blue. This indicates that it is in pairing mode.

WARNING
CAUTION

WARNING
CAUTION

ManualsLib.com

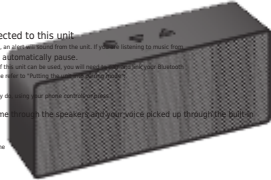

Once your device has selected the speaker, select "Toshiba TX-SF3".

If a security code is required for pairing, enter "0000".

Note: This unit will start pairing mode for 1 minute. If you do not complete the next steps before then, turn off the unit and hold the Power (ON/OFF) button, and then back to ON. Repeat step 2.

Controlling playback with the speaker

Using the volume controls on the top of this unit, push the button to increase volume and the button to decrease volume. Press the button again to pause playback, and then press the button to resume music. Press and hold the button then you can control next and previous skip playback controls.

Taking calls on connected to this unit
When you receive an incoming call, an announcement from your Phone, the music will automatically pause. Before the speakerphone feature of this unit can be used, you will need to connect your Bluetooth-enabled phone with this unit. Please refer to "Phone" in the Operation Manual.
To accept a call
You can accept a call as you usually do when your phone is not connected to this unit. Speak normally. Your call will come through the speaker when your device is picked up through the built-in microphone.
To end a call
Use your Phone controls or press the button.
To redial call
Press two times button then Repeat to calling last income or send call number.

This product bears the selective sorting symbol for Waste Electrical & Electronic Equipment (WEEE).

This symbol means that this product must be handled pursuant to European Directive 2002/96/EC in order to be recycled or dismantled to minimize its impact on the environment.

For further information, please contact your local or regional authorities.

Flammable liquids and gases not included in the selective sorting process are potentially dangerous.

This symbol and human health due to the presence of hazardous substances.

This symbol is only valid in the European Union.

If you are to discard this product, please refer to the correct method of disposal.

This unit is designed for use with Bluetooth wireless devices compatible with the IEEE 802.15.1 A2DP and AVRCP streaming audio profiles. Refer to your Bluetooth device's user manual or technical support to determine if your Bluetooth device supports these profiles.

Frequency band use

This unit uses the 2.4 GHz frequency band, however other devices may use this frequency as well. To avoid interference with other wireless devices, please follow the cautions listed below.

Certification of this device

This unit conforms to frequency restrictions and has received certification based on frequency lines, so a wireless permit is not necessary.

However, the following actions are prohibited:

• Taking apart/modifying the unit.

Range of use

Use this device within an unobstructed 10 m range. The range of usage or perimeter may be shortened depending on any obstructions, devices causing interference, other people in the room, or the construction of the building. Please note that the range mentioned above is not guaranteed.

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and are used under license.

You can connect an MP3 player or other portable audio device through this unit via AUX-in jack.

1 Plug in the 3.5 mm jack plug into the headphone or line-out jack on your audio device, and then plug in the 3.5 mm jack into this unit.

2 The unit will enter AUX mode.

3 Turn on and play your audio device.

4 Adjust the volume level on your audio device.

To preserve power, remember to turn off your audio device when not in use.

Symptoms

Notes/Solutions

• Please check this unit or Bluetooth device volume level.

• If there is no sound.

• If using 3.5 mm port, be sure the mini jack cable is securely inserted into the unit.

• Make sure your Bluetooth device supports A2DP. Check your device's user manual.

• Music is playing in a single but.

• Be sure the device is paired with this unit.

• If using 3.5 mm port, be sure the mini jack cable is securely inserted into this unit and your device.

• Please make sure the power is ON and the LED light is on.

• Make sure the unit is charged.

• Make sure your mobile phone supports HSP/HFP. Hands-free calling is not working.

• Be sure your mobile phone is paired with mobile phone.

• Check volume on this unit.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Notes

This unit does not have magnetic shielding. Devices such as mobile telephones are easily influenced by magnetism.

This unit may receive radio interference caused by mobile telephones during use. If call interference occurs, please increase the separation between this unit and the mobile telephone.

When you play at high levels for a long time, the speaker may become warm. This is normal and does not affect the life of the unit. Decrease the volume when the speaker becomes too warm.
