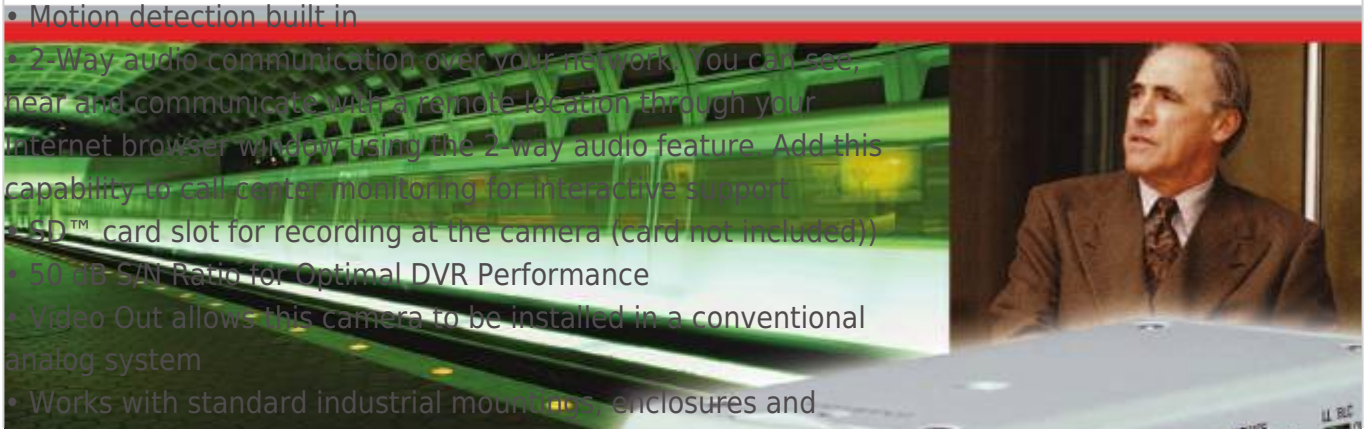
• Up to 30 FPS at 320 x 240, 22 FPS at 640 x 480 resolution
• Choose from 3 power options - PoE (802.3af), 24 V AC and 12 V DC to best suit the application's available power sources
• PoE can save on installation costs by eliminating the need to install electrical wiring or power outlets
• Motion detection built in
• 2-Way audio communication over your network. You can see, hear and communicate with a remote location through your Internet browser window using the 2-way audio feature. Add this capability to call center monitoring for interactive support
• SD™ card slot for recording at the camera (card not included))
• 50 dB S/N Ratio for Optimal DVR Performance
• Video Out allows this camera to be installed in a conventional analog system
• Works with standard industrial mountings, enclosures and



CS-mount lenses (lens and power supply sold separately)
• PoE allows the continuous surveillance in the event of a power outage by delivering battery-backed-up uninterrupted power via the local area network
