## 6. Operation in Parameter Setup Mode

### 6.4 Searching for parameters whose settings were changed (Search for changed settings)

---

The remote keypad is capable of displaying parameters whose current settings are different from their default settings, and their current settings.

#### 1

Select/confirm "Changed Parameters" using the control dial.

The Changed Parameters window appears.

Functions of function keys

[F1] key: Brings you to the Top View Mode

[F3] key: Displays, in reverse order, parameters whose setting were changed.

[F4] key: Displays, in normal order, parameters whose setting were changed.

## 2

Search for the desired parameter by pressing the [F3] or [F4] key repeatedly.

The title, function and current setting of the parameter selected are displayed.

### Functions of function keys

[F1] key: Brings you to the Top View Mode

[F3] key: Displays, in reverse order, parameters whose setting were changed.

[F4] key: Displays, in normal order, parameters whose setting were changed.

In this window, settings can be changed.

Pressing the control dial displays the Parameter Setting window, in which you can change settings as required.

⇒ For the operation procedure, see the previous sections.
