Item

**16. Remote-A or B**

Setting the remote controller  
**selection**

To separate using of remote control for each indoor unit in case of 2 air conditioner are installed nearby.

Remote Control B Setup.

1) Press RESET button on the indoor unit to turn the air conditioner ON.

2) Point the remote control at the indoor unit.

3) Push and hold CHK • button on the Remote Control by the tip of the pencil. "00" will be shown

4) Press MODE • during pushing CHK • . "B" will

Note 1. Repeat above step to reset Remote Control

Operation flow and applicable data, etc.

shown on the display.

show on the display and "00" will disappear and the air conditioner will turn OFF. The Remote

Control B is memorized.  
to be A.

- 2. Remote Control A has not "A" display.
- 3. Default setting of Remote Control from factory is A.

1. Purpose

This operation is to operate only one indoor unit using one remote controller.

2. Description

When operating one indoor unit in a situation where two indoor units have been installed in the same room or nearby rooms, this operation prevents the remote controller signal from being received simultaneously by both units, thus preventing both units from operating.

3. Operation

The indoor unit on which the remote controller selection has been set to B receives the signal of the remote controller also set to B.

(At the factory the remote controller selection is set to A on all the indoor units. There is no A setting display.)
