5. Schedule Timer

(4) To continue registering addresses, repeat step (3). (Central control address numbers will be added to the right side of the LCD display.) To cancel a registered central control address, use the  select the timer group, then use the  button.

(5)

Repeat steps (3) - (4) for each timer group. When registration is completed, press the timer  ton.

The schedule timer restarts automatically and performs initial communications. (SCAN blinks in the display.) 

The normal display appears after several minutes, and the manually assigned timer group settings are confirmed.

I Memory Back-Up Switch

After installation is completed, check that the backup switch on the reverse side of the schedule timer PCB is turned to ON.
(The backup battery will retain the current time for up to 100 hours.)

I Checking the Central Control Addresses and Operating the Units that are Controlled by the Schedule Timer

GROU

The schedule timer communicates with the indoor units to check which central control addresses can be controlled

with the current timer control. The schedule timer can then be used to start and stop these units.

(1) Press and hold the schedule timer

"Ad-(central control address)" appears in sequence, blinking.

(2) Use the GROUP button in the

this way, it is possible to check which central control addresses in the displayed timer group can be operated by the timer.

(3) With the selected timer group displayed, press the timer

indoor units in the displayed timer group start or stop. Pressing the

(operation start/stop, operation mode, temperature setting items) at the indoor units in the displayed timer group

where remote controller prohibit is in effect.

(4) After checking the addresses and operating the units, press and hold the

longer. The schedule timer display returns to the normal display and all controllable indoor units stop.

I Explanation to Customers

After work is completed, present the Operation Manual and Information for the Person in Charge of Installation

(Electrical) Work to the customer.

Explain to the customer the methods for use of the system, as described in the Operation Manual.
