## Summary of Contents for Toshiba Mini NB305 Series

[Page 1](#) Keyboard (silver colored) Removal Guide Toshiba Netbook Mini NB305 Series excelcomputerinc.com / laptopking.com Removing the keyboard from the Netbook Mini NB205 / NB305 series will take approximately 5 minutes. Required tools will be a Phillips size P0 screwdriver. <http://www.laptopking.com/manuals/servicemanualtemplete.htm>[2/20/2010 10:25:15 AM]...

[Page 2](#) Step#1 Using a size Phillips P0 size screwdriver remove these five screws. Step#2 Keeping the cover closed flip over the netbook. Open the cover. Next, remove the keyboard cover panel. The keyboard and frame can easily be removed by pulling up and away from you. There will be 3 tabs on either size of the keyboard frame giving you some resistance.

[Page 3](#) Step#3 Final step requires you to carefully pull and unlock the ZIF socket to remove the keyboard cable. A tip to unlock the ZIF socket is to slowly pull a little on the left side and then repeat for the right side in a slow rocking motion. Pulling too hard on this socket will break it requiring a new motherboard.
