Item

### 19. One-Touch

One touch comfort is the fully automated operation

Comfort that is set according to the preferable condition in a region.

Fan  
Operation

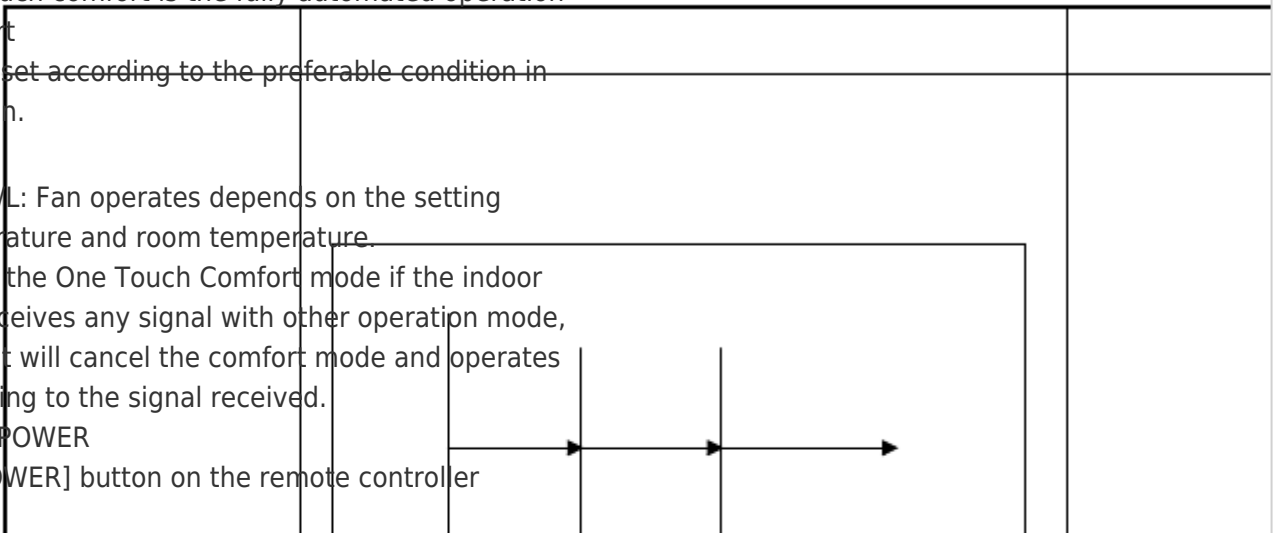

\*AUTO/L: Fan operates depends on the setting temperature and room temperature.

During the One Touch Comfort mode if the indoor unit receives any signal with other operation mode, the unit will cancel the comfort mode and operates according to the signal received.

### 20. Hi-POWER

([Hi-POWER] button on the remote controller

Mode

is pressed)

When [Hi-POWER] button is pressed while the indoor unit is in Auto, Cooling or Heating operation, Hi-

POWER mark is indicated on the display of the remote controller and the unit operates as follows.

1. Automatic operation

• The indoor unit operates in according to the

2. Cooling operation

• The preset temperature drops 1°C

3. Heating operation

• The preset temperature increases 2°C

4. The Hi-POWER mode can not be set in Dry operation

21. FILTER

When the elapsed time reaches 1000 hours after air

purifier operation, the FILTER indicator lights.

After cleaning the filters, turn off the FILTER indicator.

How to Turn Off FILTER Indicator

Press [RESET] button on the indoor unit.

NOTE :

If [RESET] button is pushed while the FILTER indicator is not lit, the indoor unit will start the automatic

operation.

When you want a temporary operation while the FILTER lamp lights, press [RESET] button to turn off

the FILTER lamp. (See page 42)
